Mayors,

I have inquired about getting you both through a plant next Tuesday or Wednesday. They like to do them earlier in the day. We appreciate your interest and would especially like for you to get through soon because of all the testing that's going on and will create news. It would be great for you to be able to see what we're doing around safety enhancements and protocols.

Additionally, I have a need to get State Reps. Megan Godfrey, D-Springdale, and Nicole Clowney, D-Fayetteville, through a plant. It would be great (on our ops guys) if we could just do it all at once. Might invite Greg Ledging, too, and perhaps Lance and Cecile. Not sure yet.

I'm inclined to just do Berry St. in Springdale because they do lots of tours there and it's easy in and out. I don't want to leave Rogers out Mayor Hines, and we can definitely get you or all through one there as well. Berry Street however is a good representation of a larger plant that does kill. The food and people safety enhancements at CNQ in Rogers are even more stringent. But if you see Berry St. and know CNQ is about twice as precautionary, you'll get the gist.

I hope that makes sense.

Would one of the days work better for you all?

Thanks,

Jeff
